revenues reached € 548 million, +1.6% Y/Y, gradually re-accelerating in spite of continued macro softness, especially in Germany in the hospitality sector. The underlying[2] revenue growth was at +3% Y/Y both in 9M26 and 3Q26.
In 9M26, 15,934 million transactions were processed, +5.7% Y/Y, with value of processed transactions at € 658 billion, +2.8% Y/Y. The continued volume growth has been also supported by national scheme in Italy thanks to Nexi Bancomat processing hub ramp-up.
Lastly, the performance in 9M26 continued to benefit from the good progress of ISV and direct channels, as well as from the positive contribution from the up-selling of Value Added Services, together with a double-digit revenue growth in E-commerce in 3Q26.

- **Issuing Solutions,** representing approximately 33% of Group's total revenues, reported revenues of € 872 million in 9M26, +2.4% Y/Y, and € 300 million in 3Q26, +1.2% Y/Y. The revenue performance has been supported by healthy volume dynamics and initiatives, notwithstanding, as expected, the bank contracts effects in 3Q26.
  In 9M26, 17,504 million transactions were processed, +7.9% Y/Y, with value of processed transactions at € 740 billion, +6.4% Y/Y. International schemes continued to deliver growth
  during 9M26; national schemes also registered a solid growth in the period, sustained by
  the ramp-up of Nexi Bancomat processing hub in Italy. Additionally, the Group continued
  to see success in international debit in Italy, alongside the up-selling / cross-selling of Value
  Added Services.

- **Digital Banking Solutions,** representing approximately 11% of Group's total revenues, reported revenues of € 283 million in 9M26, +3.0% Y/Y, and € 94 million in 3Q26, +0.3% Y/Y, reflecting some phasing effects. The revenue performance has been sustained by continued volume growth, thanks to SEPA Clearing, Open Banking and Bank Instant Payment Hub transactions, as well as positive contributions from new strategic initiatives, including the Digital Euro offline project, the Zippay A2A solution for Irish banks, new customers from Network and PagoPA Bill Payments campaigns. Lastly, Nexi and Deutsche Telekom have been selected by the ECB to provide the Digital Euro Network Service Provider (NSP) Connectivity.

In 9M26, **Total Costs** were at € 1,278 million, +2.0% Y/Y, thanks to the strong focus on efficiencies and the initial benefits coming from the Group organisation simplification, notwithstanding volume and business growth, inflationary pressure, and strategic investments to drive future growth. In 3Q26, Total Costs were at € 412 million, +2.2% versus 3Q25.

As of September 30th 2026, the **Net Financial Debt** was at € 5,009 million, while the Net Financial Debt / EBITDA ratio decreased to 2.6x, 2.4x excluding the dividend distribution in May 2026 and the completion of Banca Popolare di Sondrio deal in April 2026. In addition, the Cash position at the end of the period reflects, as usual, the tax payments.
